1. What qualifications, skills, and knowledge do you possess that are relevant to the positions for which you are applying?
2. How would the positions you are applying to support and gain from your curricular and co-curricular activities?
3. What do you think Dickinson could do to be more sustainable? Use the context of the position you are applying for to describe how you would initiate this change. If you are reapplying for a position you currently hold, why come back? What do you hope to gain by continuing with CSE?
