

Volunteer Research

As part of the Dickinson College experience, volunteer research and/or lab opportunities are encouraged to enhance the educational opportunities, knowledge and proficiency related to a specific field of study. These curricular experiences have an educational benefit for a student in their pursuit of graduate school and professional advancement.

- **Research Assistants.** An educational relationship exists when a student performs research under a faculty member's supervision while obtaining a degree. Under these circumstances, the Department would not assert that an employment relationship exists with either the school or any grantor funding the student's research.
