Policy/Procedure

There is no charge to be seen in the Health Center. There are, however, some charges generated for certain medications and laboratory tests, just as in any medical facility. Costs for medication and laboratory services may be paid in cash, charged to parents, charge to VISA or Master Card, or the student may use their declining balance account. A receipt is available upon request so these charges may be submitted to your insurance carrier. Costs for medical care provided by the Emergency Department, or specialists in the community, are the students' responsibility. If a medication is needed that is not stocked in the Health Center, a prescription will be written. Your prescription can be filled at any of the local pharmacies. For the name, address and phone numbers of the local pharmacies, visit www.dickinson.edu/departments/health/pharmacies.html.

If you belong to a Managed Care network such as a Health Maintenance Organization (HMO), you must notify them of the visit and charges by phone within a certain time (usually 24 hours) in order to be reimbursed for the expense. Each insurance carrier is different, so you should familiarize yourself with your companies' guidelines for notification and reimbursement.

A current list of fees for services offered by the Health Center is available at www.dickinson.edu/departments/health/fees.html.
