A grade of 'incomplete' may be reported only in cases in which illness or other serious emergency has prevented the student from completing the work for the marking period. No incomplete is in effect until a form has been filed with the registrar that states the reasons under which it has been granted and is signed by both the student and instructor. An incomplete may not be reported because of negligence or procrastination on the part of the student. An incomplete grade must be cleared before Roll Call of the following semester unless an exception is granted by the Committee on Academic Standards. In every case, the incomplete must be cleared before the end of the second semester following. If an incomplete has not been cleared within stipulated time limits, the appropriate grade indicating a lack of satisfactory completion will be recorded.

The student should contact his or her professor, as well as the health and/or counseling centers as appropriate, prior to requesting an incomplete. Either the student or faculty member may obtain an incomplete form from the registrar's office and may return the completed form to the registrar's office. The registrar's office will verify the existence of any mental or physical condition with the counseling or health centers, and will report all submitted incomplete grades to the Academic Standards Committee. If the Committee feels that the incomplete was submitted with insufficient documentation or for reasons which conflict with the above guidelines, it will contact the faculty member or student for more information. The Academic Standards committee may call for a final grade if the incomplete is judged to be inappropriate. The faculty member may then formally meet with the Committee to resolve any remaining dispute. If necessary, an appeal of the Standard Committee's decision may be made to the Dean of the College.
