## Microsoft Excel 2013: Compare two Lists in Excel and Highlight Matches

Comparison of lists of data is something that we do all the time. This tutorial gives details that you can apply immediately to compare lists using Excel 2013 to find Duplicate or Unique data.

Of course, you need at least two lists of data. Just to make it simpler and easier to read, let's name the two lists as 1st and 2nd Lists of Customers as shown below.

1st List of Customers	2nd List of Customers		
Amanda	Andersen		
Beth	Amanda		
Charley	Charley		
Dhaun	Deeraj		
Elizabeth	Sony		
Floyd	Thomas		
Ganesh	Valerie		
Ivory	Zach		
Jackson			

Select both columns of data that you want to compare. On the **Home** tab, in the **Styles** grouping, under the **Conditional Formatting** drop down choose **Highlight Cells Rules**, then **Duplicate Values**.

On the **Duplicate Values** dialog box select the colors you want and click **OK**. Notice Unique is also a choice.

Duplicate Value	5	? <mark>×</mark>
Format cells t	hat contain:	
Duplicate 💌	values with	Light Red Fill with Dark Red Text 💌
		OK Cancel

Even before you click **OK** take notice it is already showing you the duplicates!

1st List of Customers	2nd List of Customers			
Amanda	Andersen			
Beth	Amanda			
Charley	Charley			
Dhaun	Deeraj			
Elizabeth	Sony			
Floyd	Thomas			
Ganesh	Valerie			
Ivory	Zach			
Jackson				
Duplicate Values	? <mark>- × -</mark> )			
Format cells that contain:				
Duplicate 💌 values with	Light Red Fill with Dark Red Text 💌			
	OK Cancel			
-				

Once you click **OK**, then click into an empty cell anywhere on your sheet, then you will see the duplicates highlighted as shown below.

1st List of Customers	2nd List of Customers
Amanda	Andersen
Beth	Amanda
Charley	Charley
Dhaun	Deeraj
Elizabeth	Sony
Floyd	Thomas
Ganesh	Valerie
lvory	Zach
Jackson	

To remove the rule, click on **Conditional Formatting**, **Clear Rules**, **Clear Rules from Entire Sheet**.

🔀 Conditional Formatting 👻		□ Insert	Σ • /	7 🏔
