

To the Class of 2018,

My name is Zoë Kaminski and I am running to be our Class President.

I truly believe this college is what we make of it and I feel so lucky to have had the opportunities that Dickinson has presented to us. It has been an incredible three years so far and in our final year I am dedicated to being involved on a greater scale.

As a sophomore I was on Student Senate as a senator for the Academic Programming and Standards Committee, the Academic Standards Subcommittee, and the Academic Initiatives Committee. In addition, I was an analyst in the Student Investment Group, Treasurer of Students for Sensible Drug Policy, and Secretary of the Arts Collective.

This fall I had the opportunity to study abroad in Toulouse, France and this spring I'm doing the New York City Program where I have been interning with an investment management firm and networking with the amazing Dickinson alumni in the greater NYC area. This summer I look forward to interning with FTI Consulting here in the city and then returning to campus for what will be our greatest year yet.

At a time where the management of our college is in transition, I will, as your Class President, work to build a personal relationship between our class and our new President of the college. Do not hesitate to reach out with ideas, concerns, or any questions you may want answered – I will be an open and available resource for you.

While our class has had great leadership so far, there is always room to improve and I am prepared to take on this incredible opportunity.

Yours truly,

Zoë Kaminski
