

Sophomore Class President
Gabriella Gueits

Letter of Intent

My name is Gabriella Gueits and I'm a Biology Major with Health Studies Certificate, and I am running for Sophomore Class President. The Dickinson Four poses a question for each class, and for our sophomore year the question is "What?" What do we want to do? What's important to us as a class? I have an idea of what our sophomore year should look like, and that's why I'm running for president. I am interested in this position because I can bring a perspective that will represent our class in many ways and help our class discover "what" matters to the sophomore class that makes us unique. I would like to use my leadership skills and teamwork skills with other members of Senate and the Sophomore Class Council to help organize events and act as a voice to share ideas with Student Senate. Also, I would like to get to know our class and come up with fun events or ideas that include all people and allows students to actively engage and become more aware.

Currently, I am a member of Student Senate as First-Year Class Senator. As First-Year Class Senator, I've learned many useful skills that I can use to serve as President of the Sophomore Class, such as completing event request food, catering forms, requesting space through CASE, and budgeting skills. Also, I was able to utilize my teamwork skills by working closely with other senators. I enjoyed organizing events and taking on big tasks to make sure the events really came together. I'm also a member of the Latin American Caribbean Club (LACC) and Sister Circle. Both of these clubs represent me and gives me the opportunity to form friendships with people who either share similar interests or similar experiences. Another example of my involvement on campus is the Emerging Leadership Retreat, which helped me grow more as a leader. The retreat allowed me to interact and work with other leaders on campus, and I learned more about my strengths as a quiet leader.

As Sophomore Class President I hope to share my ideas with our Student Senate by coming up with ways to unite the classes, discussing campus issues, and making students aware of what's happening on campus. Our class is the most diverse class, and I would like to incorporate more events that represent how diverse our class is and the many different interests that students have. It is important that our class comes together, and I would like to be the person that students can talk too if they feel an issue has come up or has an idea that they would like to share. As sophomores, it is time that we start making Dickinson ours and I would like to help our class do that by being President.
