

Letter of Intent

Dear fellow Dickinsonians,

My name is Maggie Wilson and I am running for Class Senator for the class of 2021. A little about me: I am from Ardmore, Pennsylvania which for those of you have never heard of it, is only about a fifteen-minute drive from Philadelphia, so roughly two hours from Dickinson. I also have been playing lacrosse for over ten years and will continue to play here at Dickinson. Though I myself only have one sister, I come from a large, crazy family and it is from those people that I have found my voice, my passion for wanting to make where I live, this beautiful country, and our world a better place.

Exactly thirty years ago my parents, Matt and Andrea Wilson (then Andrea Shea) walked onto their college campus for orientation wide-eyed, excited and perhaps a little nervous and anxious for the upcoming days, emotions we all most likely experienced. Days later, with a few new friends and feeling more confident in themselves, they walked up a flight of steps and signed into the college, exactly like we did. My parents, graduates of Dickinson's Class of 1991, exemplify for me the ideal Dickinsonian and though I strive to make Dickinson my own, their experiences here give light to how I can achieve just that.

For me, college is all about finding yourself and your interests. Maybe you decide that you want to get involved with Greek life, become RAs in future years, join some intramural sports team, or play on a varsity sport. And while these are all things that my parents took on in their years at Dickinson and activities that I may enjoy as well, they are not what I plan to limit myself to. I am an extremely hard worker, persistent, responsible, and maybe most importantly, I am a good listener. I have always been one to listen to the concerns of others and offer them advice when necessary. I would like to take this skill of mine to a higher level, one to which my voice as well as the voices of those I have been entrusted with, will have a chance to be heard, a chance to truly make a change.

Becoming a part of the Student Senate is just the start on how I plan to make Dickinson and my experience as a legacy here *mine*. As your fellow classmate, friend, and Dickinsonian, if elected, I promise to have the drive and commitment necessary to continuously be a voice for the class of 2021.

Yours faithfully,

Maggie Wilson
