

To Whom It May Concern:

My name is Amanda Allan. I am a Biochemistry and Molecular Biology major and I am interested in running for the position of Junior Class Senator. I am involved in a wide variety of activities on Dickinson's campus including: Tritons, Pi Beta Phi Sorority, Alpha Lambda Delta honor's society, and Pre-Health Society. I believe that these activities have helped me gain a large perspective across different aspects that are here at Dickinson.

Previously, on the Executive Committee as the Director of Operations, I am experienced in the structure and basic necessities that are vital to Dickinson's Student Senate Function. I am aware of the high expectations that are set for each senator and am willing to put in the time to be as involved as I possibly can.

I can ensure you that I will not only have excellent attendance, but will attend each meeting full of energy, ready to discuss anything involved in the student experience at Dickinson. I am up to date on all of Senate's previous initiatives: completed and still in the works, and hope to help accomplish pending tasks and set forth new ones. I am a very friendly person who is willing to talk to any student to hear out any questions, comments, or concerns that they may have about Dickinson. I think that Dickinson is a stellar institution, but I do believe that there is always room for new changes and improvements.

I hope that you choose me to be one of the voices for the Junior Class. We still have 2 years left on Dickinson's campus, leaving plenty of opportunities to make a mark in Dickinson's history. If you have any questions, please don't hesitate to reach me at [allana@dickinson.edu](mailto:allana@dickinson.edu).

Best,  
Amanda Natalie Allan
