

Marley Pulz Letter of Intent for Senior Class Senator

Hello there everyone! I am running for one of the Senior Class Senator positions for our wonderful final year at Dickinson College. A little about my past in The Dickinson College Senate and why I will be a good candidate for this position; freshman year I was Vice President of Events, and sophomore year I was Class President. As Class President I organized events, delegated tasks to the class senators and sat in on some committee meetings. I am used to going to the weekly meetings and enjoy being behind the scenes. After coming back from a year abroad I would really like to see some changes with Dickinson, and I now have a new perspective on how other school's Student Governments function, and I'd like to bring that knowledge to our Senate.

I love being involved on campus and I think it is really important for the elected students to be accessible to the rest of the student body. That being said, I believe that I am personable and accessible to not only the senior class, but the rest of the student body as well. Two issues I'd like to work on are: reducing the gym credit, and setting up a party registration program with DPS. I am more than willing to receive any requests or recommendations from all of you on whatever you think needs improving, we want to make this the best year it can be! Much more to come for a great year, please don't forget to vote!!
