

A Map of the Major

- 110: Animal learning & cognition
- 125: Brain & behavior
- 130: Perception, memory, & thought
-
- 135: Women & gender
- 140: Social psychology
- 145: Human sexuality
- 150: Cross-cultural psychology
-
- 155: Child development
- 165: Psychopathology
- 175: Community psychology

Take at least four,
1 from each group:
110-130
135-150
155-175

Research Methods in...

- 310: Animal learning*
 - 325: Neuroscience *
 - 330: Cognition*
 - 335: Gender & sexuality*
 - 340: Social psychology *
 - 350: Cross-cultural psychology *
 - 355: Child development*
 - 365: Clinical psychology *
 - 375: Community psychology *
 - 380: *Special Topics*
- *Prerequisite: PSY201/202 and must have taken corresponding 100-level course

Seminar in...

- 410: Animal learning
 - 425: Neuroscience
 - 430: Cognitive psychology
 - 435: Gender & sexuality
 - 440: Social psychology
 - 450: Cross-cultural psychology
 - 455: Developmental psychopathology
 - 465: Clinical Psychology
 - 475: Community psychology
 - 480: *Special Topics*
- Prerequisite: PSY201/202

Take at least two

Take at least two

Methodology Core

- 201: Design of psychological research
- 202: Analysis of psychological data

Take both

Take at least one

- 500: Independent Study
 - 550: Independent Research
 - Any 300-level course*
 - Any 400-level course*
- *Prerequisite: PSY201/202 and must have taken corresponding 100-level course
