Close Contact / Exposure

Complete the Symptoms Tracker

Vaccinated and up to date with COVID requirements

Monitor for symptoms

- Test on or after day 5 after exposure
- No quarantine necessary
- Must wear a well-fitting mask when around others

Symptomatic

- Do not enter testing center
- Contact HR for a test
- Contact healthcare provider, if able

Call 911 if you have the following symptoms: difficulty breathing, blue lips or face, confusion, difficulty awakening or staying awake, persistent chest pain or pressure.

Positive Test Result

- Isolate at home for 10 days (day 0=start of symptoms or positive test date, whichever was first)
- HR will follow up and initiate contact tracing and provide further guidance.

Unvaccinated or not up to date with COVID requirements

Monitor for symptoms

- Quarantine for 10 days
- Test on or after day 5 after exposure
- Able to return to work after 5 days with negative test
- Must wear a KN95 mask when around others

Unvaccinated Guide

You are considered unvaccinated if you have not received a booster after eligibility of vaccination series:
- Pfizer-BioNTech—5 months
- Moderna—5 months
- Johnson & Johnson’s Janssen—2 months

Employees with approved exemptions are also considered unvaccinated.
