Healthy Summer Tips from Health America

Soaking Up Some Rays?
When the sun heats up, head for cover and protect yourself from the dangers of overexposure to ultraviolet (UV) radiation. You have probably heard that we need some sunshine to absorb vitamin D, but too much can be dangerous. Overexposure can lead to skin cancer, cataracts, and immune system suppression. Getting too much sunshine can also cause wrinkles and aging of the skin. The U.S. Environmental Protection Agency (EPA) recommends taking the following action steps every day to protect yourself:

- **Limit Time in the Midday Sun:**
  The sun’s rays are the strongest between 10 a.m. and 4 p.m. Limit exposure during this time whenever possible.

- **Seek Shade:**
  Find a shady spot whenever possible. Remember the shadow rule: No shadow, seek shade!

- **Always Use Sunscreen:**
  Cover all exposed skin with a Sun Protective Factor (SPF) of at least 15 or higher. Reapply every two hours, even on overcast days.

- **Wear a Hat:**
  A hat with a wide brim offers good sun protection to your eyes, ears, face, and the back of your neck.

- **Cover Up:**
  Covering up with tightly woven, loose-fitting and full length clothing is a good way to protect your skin from UV rays.

- **Wear Sunglasses:**
  Check the label when buying sunglasses to ensure that they provide 99 to 100 percent UVA and UVB protection.

- **Avoid Sunlamps and Tanning Parlors:**
  The light source from sun beds and sun lamps damages the skin and unprotected eyes.

- **Watch for the UV Index:**
  The Index predicts UV intensity levels on a scale of 1 to 11+, where 1 indicates a low risk of overexposure and 11+ signifies an extreme risk. The UV Index is issued daily nationwide. You can check the UV Index at [www.epa.gov/sunwise/uvindex.html](http://www.epa.gov/sunwise/uvindex.html) before heading outdoors.

Enjoy the beautiful outdoors without increasing your exposure to harmful UV radiation. You can learn more about UV safety at [www.epa.gov/sunwise](http://www.epa.gov/sunwise).

Summer Picnic Reminder
The 2012 annual summer picnic will be held on Friday, August 10 at North Middleton Park from 4:30-7:30 p.m. Each year, the picnic offers delicious food and a variety of games and entertainment for all who attend. This year’s picnic activities include the return of the Dunk Tank, a Bounce House for adults & kids, and also the duo of Ruffles & Pinky with balloons and face-painting along with Bingo and a few other surprises.
Sunglasses are often thought of as an accessory, but not only can this eyewear be fashionable, it can also serve a greater purpose of eye protection. Over time, the effects of UV rays may help cause a number of eye problems. UV rays come from many directions. They can come directly from the sun, but they are also reflected from the ground, water, sand, snow, and other bright surfaces. Prevent Blindness America recommends protecting your eyes from the sun by wearing a wide-brimmed hat or cap and using eyewear that absorbs UV rays. All types of eyewear, including prescription and nonprescription glasses, contact lenses, and lens implants should absorb UVA and UVB rays. Choose sunglasses that:

- Reduce glare
- Filter 99 to 100 percent of UVA and UVB rays
- Protect your eyes
- Are comfortable
- Do not distort colors

Children do not have the same ability as adults to protect against UV radiation, so cover their eyes with sunglasses too.

Grilling Outside the Box

Grilling is a summer staple, but don’t limit your grilling items to meat, poultry and fish. Try grilling vegetables and fruits this season. Use these helpful tips the next time you grill.

**Bell Pepper**
Cut in half, remove the seeds and stem; brush lightly with olive oil and grill for 2-3 minutes on each side.

**Eggplant**
Cut in disks and soak in water for half an hour, pat dry, brush lightly with olive oil and grill for 2-3 minutes on each side.

**Mushroom**
Clean well, pat dry and brush lightly with olive oil and grill 5-8 minutes depending upon size.

**Onion**
Cut in half inch slices, remove outer skin, brush lightly with olive oil and grill 3-4 minutes.

**Pineapple**
Cut in slices or disks, remove the core and outer skin. Brush with lemon juice or honey, grill for 2-3 minutes on each side.

**Tomatoes**
Cut in half top to bottom, brush lightly with olive oil and grill cut side down for 2-3 minutes.

Grilled vegetables and fruits can add color and flavor to your table this summer. These items are so tasty that you may just forget that they are healthy.

Quick Facts and Questions

Gym Membership Discount/Reimbursement Policy
During the 2011-2012 fiscal year, all full-time and part-time employees were eligible to receive a 25% reimbursement of their monthly gym membership fees based on the gym selection of their choice to encourage a healthier lifestyle for all employees. Effective July 1, 2012, we increased the reimbursement amount to 50% of the monthly gym membership fee or a maximum of $30 per month. To qualify for reimbursement, employees must obtain proof of their monthly membership fee and their quarterly attendance from the gym membership office showing an attendance rate equal to 30 or more sessions per quarter. Documentation must be forwarded to Jeanette Diamond in Human Resource Services. Quarters are based on the time periods of January-March, April-June, July-September and October-December. For more details contact Steve Riccio, Human Resource Services. Note: Personal training sessions are not included in the gym membership discount program.

Weight Watchers–12-week program
Wednesdays beginning September 5 through Tuesday, November 20*
HUB side rooms 205-206 noon-1 p.m.
The PointsPlus program incorporates the best and the latest in nutritional science and research and has been rigorously tested and reflects more than a decade of innovation that will now be presented to members as the best weight loss program possible to help motivate people to eat more healthfully and help them succeed at losing weight. Point values calculated are based on the 4 major nutrients – protein, fat, carbohydrates and fiber and how they are each converted to energy in the body. In other words – all calories are not created equal!

Weight Watchers members will receive a daily PointsPlus Target and then choose foods that will have a PointsPlus value. Weight loss occurs by choosing foods and portion sizes and sticking to your Target. Activity is encouraged and the pillars of behavior modification and group support are incorporated into the program.

We look forward to becoming partners in wellness that will combine Weight Watchers knowledge and expertise with member efforts. Pre-registration is requested.
(HHIP: Nutrition)

*In observance of Thanksgiving Day, there will be no meeting held on Wednesday, November 21. The last meeting date may change to Wednesday, November 28, pending confirmation with Weight Watchers.

NEW PROGRAM: 
Marathon in a Month!
Yes, it’s true. We can all finish a marathon (26.2 miles) within one month!

Fall is the perfect time to begin a walking program as we head into the cooler temperatures and the sizzle of summer’s sweltering heat drifts away on the late summer breezes. This walking program is designed for individuals who are looking to achieve a baseline fitness level. The goal is to complete the distance of a marathon within a thirty day time period... That is less than one mile a day. Completing Marathon in a Month counts as ten (10) points per month (up to four months) in the 2012-2013 Holistic Health Incentive Program (HHIP). Each month one lucky participant will receive a $25 Visa gift card!

Please submit your results at the end of each month to devwell@dickinson.edu.

Note: It is highly recommended that you consult with your physician before beginning any physical fitness routine. Also, avoid walking on days of extreme weather.
