

BUNNY ROOM (April 15th-19th)

This week: Reduce, Reuse, and Recycle

This week's focus: Sorting/ classifying objects.

		MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
This week's Standard		<p>STANDARD: 2.4 PK.A.4 Classify objects and count the number of objects in each category. BIG IDEA: Measurement attributes can be quantified and estimated using customary and non-customary units of measure. Mathematical relations and functions can be modeled through multiple representations and analyzed to raise and answer questions. ESSENTIAL QUESTIONS: Why does "what" we measure influence "how" we measure? How can data be organized and represented to provide insight into the relationship between quantities?</p>				
<p>Circle Time -Participate in group discussions -Expand his/her vocabulary -Continue to work on letter recognition and letter sounds OL 5.1.1.1</p>		Make a list of things you throw away	What's inside my box? What can we do with it? How can we reduce, reuse, or recycle it? Old t-shirt, paper bag, "used" tissue, Soup can, Light bulb Plastic yogurt cup	What happens to trash after we throw it away? Where do you think it goes?	Why do you think it's important to reduce, reuse, and recycle?	Can you think of ways to make the list of things we throw away smaller? What can we cross off the list?
