The Commencement Exercises of the Academic Year 2025–26

Dickinson College

Sunday, May 17, 2026
Ten O'Clock
On the John Dickinson Campus at Old West

Those attending the Commencement exercises are asked not to smoke. Restrooms are located in Bosler Hall and handicapped access restrooms are located in Althouse Hall, the lobby of the Holland Union Building and the Stern Center. A first-aid station will be located between Old West and Althouse Hall throughout the Commencement exercises.

The Commencement ceremony may be viewed at any time by live broadcast at the following locations: Althouse 106, Stern Great Room and Weiss 235.

In the event of inclement weather, additional indoor viewing locations are available at the following: Anita Tuvin Schlechter Auditorium, Stafford Auditorium (Rector Science Complex) and Allison Great Hall.

The ceremony will be available for viewing via livestream on the Dickinson website at www.dickinson.edu/commencement.

The Commencement Exercises

The first Dickinson College Commencement exercises were held in the Presbyterian church on the town square, and the occasion was something of a public holiday. Professors and students marched in procession, first from the college buildings in Liberty Alley and then from our present campus. Each graduate gave proof of his learning by delivering an address in Latin or English, a practice that continued through most of the 19th century. In later years, music was introduced as a restorative between orations, and as the number of graduates increased, the final oratory was reduced to one guest speaker, rewarded with an honorary doctorate.

The details of the Commencement procession at Dickinson have varied, but the order has been preserved. Throughout much of the latter half of the 19th century, Trustee William Ryland Woodward, class of 1838, led the processions, followed by the head janitor, who wore a tall silk hat and carried the diplomas on a silver tray. In 1897 board member Horatio Collins King, class of 1858, was named the first marshal of the college. He led almost all of the processions during the next two decades, holding up a small wooden baton as an ensign of his authority. In the years since, 12 members of the faculty have carried the same baton while officiating as marshal.

In 1950, a more imposing symbol, the college mace, was fashioned by Mary O. Abbott. Carved in cherry and black walnut and surmounted by a bronze mermaid, the mace bears the seal of the college and bas-relief portraits of John Dickinson, Benjamin Rush and Charles Nisbet. Two rings and the finial on the shaft were carved from the stump of the walnut tree that grew where Denny Hall now stands and beneath which, according to tradition, George Washington stood as his army passed in review in 1794. Introduction of the mace into college ceremonies led to the selection of other professors to serve as mace bearer.

The order of procession is now the marshal, the mace bearer, faculty, administrators, the graduating class and the presidential party, which includes trustees and special guests.

The gowns worn by participants hearken back to the monastic robes of the Middle Ages. The hood—worn by clergy and students for warmth in drafty halls—was retained in specialized cases, such as academic distinction. In the United States, an intercollegiate commission in 1893 adopted a uniform code requiring bachelors' and masters' gowns to be made of cotton poplin or similar material, while silk or rayon is used for doctoral robes. Bachelors' gowns have pointed, open sleeves hanging to the knee, and masters' gowns have closed sleeves, with the arm brought through a slit at the elbow. Doctors' gowns have velvet facings down the front and full, bell-shaped sleeves, each trimmed with three bars of velvet. The black mortarboard cap is standard in the United States; doctors may wear a gold tassel, but all others wear black.

The hood is lined with silk in the official colors of the institution that granted the highest degree held by the wearer, while the color of the velvet border indicates the field of study within which the degree was awarded. Some of the latter designations are as follows: *white*, arts and letters; *scarlet*, divinity; *purple*, laws; *golden yellow*, science; *dark blue*, philosophy; *light blue*, education; *brown*, fine arts; *pink*, music; *green*, medicine; *orange*, engineering. With the duplication of college colors, some universities have authorized the use of an entire robe of a distinctive color, and others place an insignia on each side of the front.

Clerical gowns were worn by the earliest faculty but disappeared early in the 19th century. Curiously, students at Dickinson adopted the academic robes at Commencement before faculty, who did not appear in gown and hood until the procession of 1904. Previous generations of graduating seniors were distinguished only by their affiliation with one of the literary societies—the red rose of Belles Lettres or the white rose of Union Philosophical. During today's ceremony, graduating seniors who studied abroad during their Dickinson careers wear the flags of their host countries on their academic gowns.

In the college's early days, a Latin ritual was included in the Commencement ceremony, beginning with an inquiry by the president to the trustees: *"Placetne vobis, viri admodum generosi, ut juvenes, qui cursum suum in hoece collegio nuper peregerunt, ad baccalaureatus in artibus gradum nunc admittantur?"* To this one trustee solemnly answered for all: *"Placet."* The president completed the ceremony with words similar to those used now in English. The early diplomas also were in Latin and bore the signatures not only of the president but of every professor under whom the candidate had studied.

The first Dickinson honorary degree was an M.A. awarded to Nathaniel Randolph Snowden in 1790. Through most of the 19th century, masters' diplomas were awarded to all alumni who, three years after graduation, had given some evidence of being established in life—a sort of confirmation of the first award. (Once a generally accepted practice in American colleges, this no longer prevails.) The earliest honorary doctorates, awarded in 1792, were in divinity. Distinguished alumni have been so honored from an early date, including James Buchanan, LL.D., 1842; Spencer Fullerton Baird, D.P.S., 1856; Moncure Daniel Conway, L.H.D., 1892; and Zatae Longsdorff Straw, Sc.D., 1937.

Honorary Degrees

Charles R. Craig ’65, P’89

Charles R. Craig, a retired senior executive with a distinguished 50-year career at renowned glass maker Corning Inc., will receive a Doctor of Chemistry honorary degree. Craig is recognized for his lifelong commitment to scientific innovation, education and philanthropy.

Craig graduated from Dickinson in 1965 with a Bachelor of Science in chemistry. His connection to the college runs deep. A third-generation Dickinsonian, he followed in the footsteps of his parents and a great-aunt. Craig met his wife, Trudy, a Peruvian exchange student, while at Dickinson. In 2020, the college honored him with the Distinguished Alumni Award for Professional Achievement.

Craig’s professional career began in Peru, where he spent five years as a research chemist and supervisor for a major American mining and metals company. He subsequently pursued doctoral studies in chemistry, metallurgy and geology at the University of Minnesota. He then joined the engineering division of Corning Glass Works, now Corning Inc., a global leader in glass, ceramics and optical fiber manufacturing. Over a five-decade tenure, Craig rose through the ranks to become senior vice president for administration and operations in the Science & Technology R&D division, retiring in 2023.

Beyond the corporate sector, Craig has held significant leadership roles in higher education and management. He serves as chair of the American Management Association Board of Trustees and served for 20 years on the Board of Trustees at Clarkson University in Potsdam, New York, where he was named an honorary alumnus in 2023. He also served as a College Council member at Alfred State College of Technology (a SUNY institution), receiving the Presidential Medal in 2023 and an honorary Doctor of Humane Letters in 2025.

A loyal donor to Dickinson for 45 years, Craig and his wife have two children—Suzanne (a member of Dickinson’s Class of 1989) and Robert—and three grandchildren.

Kevin B. Johnson ’83

Dr. Kevin B. Johnson, an international leader in clinical information technology, will receive a Doctor of Medicine honorary degree. Notably, he served as the first Black chief resident in pediatrics at Johns Hopkins Hospital in Baltimore in 1992. Currently, Johnson is the David L. Cohen University Professor of Biomedical Informatics, Computer and Information Science, Pediatrics, and Science Communication at the University of Pennsylvania. He also serves as vice president of applied informatics for the University of Pennsylvania Health System and leads the Artificial Intelligence for Ambulatory Care Innovation (AI-4-AI) Lab.

His research focuses on clinical information systems that enhance patient safety and medical guideline adherence. He is globally recognized for his work in e-prescribing and computer-based documentation. His current projects explore the integration of artificial intelligence in healthcare, specifically through the REDUCE project (Re-imagining Encounter Documentation Using Computation and Engineering), which utilizes AI to quantify symptoms and improve patient-clinician communication.

Throughout his career, Johnson has authored more than 200 publications and earned election to prestigious organizations, including the National Academy of Medicine, the American College of Medical Informatics and the American Institute of Medical and Biological Engineering. A committed science communicator, he produces documentaries on health technology and hosts the podcast “Informatics in the Round.” He also co-authored the “Who, Me?” book series, which features scientists from marginalized backgrounds.

Before joining the University of Pennsylvania, Johnson was the Cornelius Vanderbilt Professor and Chair of Biomedical Informatics at Vanderbilt University School of Medicine. From 2014 to 2019, he served as senior vice president for health information technology at Vanderbilt University Medical Center, where he streamlined administrative systems and developed AI-driven tools to assist with clinical decision-making.

Johnson earned the Hufstader Prize when he graduated from Dickinson in 1983 with a Bachelor of Science with honors in biology. The prize is given annually by Dickinson’s president to two graduating seniors for making the greatest contributions to the good of the college. Johnson has remained an engaged and generous member of the Dickinson community. His service includes membership on the Alumni Council, volunteer work as an admissions interviewer and a key role in establishing the former Bullard Music Studies Support Fund. He earned an M.D. from the Johns Hopkins University School of Medicine and an M.S. from Stanford University.

Honorary Degrees & Commencement Speaker

John C. Pohl ’78, P’06
Susan Wyckoff Pohl ’80, P’06

John C. Pohl and Susan Wyckoff Pohl are the founders of the Seattle-based Moraine Foundation, which is focused on helping people live healthy and productive lives through addressing racial inequity, social injustice and climate change.

John C. Pohl, a 1978 Dickinson graduate with degrees in geology and political science, will receive a Doctor of Photography honorary degree. After earning an M.B.A. from Seattle University, John worked in the manufacturing and software field, developing Expert Systems. Later, John merged his scientific background with creative expression through the practice of “geophotography,” utilizing the philosophy of *Naturgemälde* (painting of nature) to capture the interconnected complexity of the natural world with a focus on landscape and large panoramic views. In addition to his work with the Moraine Foundation, John has been active with Dickinson’s Arctic and Alpine studies, the University of Washington’s Discovery in Geosciences, and the Smithsonian’s Natural History Museum.

Susan Wyckoff Pohl will receive a Doctor of Arctic & Polar Studies honorary degree. She matriculated with the Dickinson class of 1980 and later earned her B.A. in political science from the University of Washington in 1981. Through her leadership roles with the TEW Foundation and The Norcliffe Foundation, as well as her trusteeship with the National Parks Conservation Association, she has supported efforts to get all generations into wild and public spaces. Susan also served as a member of Dickinson’s Board of Trustees.

Together, the Pohls have transformed the Dickinson experience. Through the Moraine Foundation, in 2009, they established the Endowed Chair in Africana Studies. Now known as the Judith Rogers ’65 and Maureen Newton Hayes ’65 Distinguished Endowed Chair in Africana Studies, it carries the names of the first African American women to integrate Dickinson’s residence halls. The Pohls have also created the Moraine Chair in Arctic Studies and founded the Pohl(ar) Expedition Fund, supporting student-faculty research trips across the Arctic, mapping volcanoes and studying the rapid changes of glaciers and sea ice.

The Pohls are members of the college’s Founders’ Society, the Mermaid Society and the John Dickinson Society. One of their four children, Gwyneth Pohl Drake, is a member of Dickinson’s Class of 2006.

Sarah Kersh

Sarah Kersh is the most recent recipient of the Constance & Rose Ganoe Memorial Award for Inspirational Teaching. The only student-bestowed accolade at Dickinson, graduating seniors vote on the award each year. “She is seen as an exceptional mentor who combines intelligence with a caring approach, ensuring the personal growth of her students,” Class of 2025 President Olivia Abbott-Havers said when she announced Kersh’s recognition at last year’s Commencement. Abbott-Havers also lauded Kersh’s empathy, interactive teaching methods and personal investment in her students’ success and wellness.

“My commitment to Dickinson students is powerfully shaped by a dedication to inclusivity and my deep-seated desire to engage in meaningful dialogue across our many differences,” Kersh said. “I strive to create classroom environments in which students explore the unfamiliar and develop new skills, while also learning who they are and what futures they might forge beyond their Dickinson experience.”

The Ganoe Award is the latest in a line of honors for Kersh’s work. In the spring of 2025, she received the OUTstanding Service Award from Dickinson’s LGBTQ+ Center, which is presented to individuals within the college who identify as queer (LGBTQQIA+) and have been actively involved in social justice work to create a more inclusive Dickinson community. In 2023, Kersh received the Joyce A. Bylander Award for Excellence in Diversity Education.

Kersh’s teaching focuses on Victorian literature and culture, queer studies and digital humanities. Her current research focuses on 19th century sonnet sequences and disability studies. She earned a Bachelor’s degree from Muhlenberg College and a Master’s and Ph.D. in English Literature from Vanderbilt University.

The Sam Rose '58 and Julie Walters Prize at Dickinson College for Global Environmental Activism

Honoring Natural Resources Defense Council Co-Founder John Adams

Ryan Lash

This year Dickinson College awards the 14th-annual Sam Rose '58 and Julie Walters Prize at Dickinson College for Global Environmental Activism to Ayana Elizabeth Johnson.

Johnson is a marine biologist, policy expert, writer and teacher working to help create the best possible climate future. She is co-founder of Urban Ocean Lab, a think tank for the future of coastal cities, and is the Roux Distinguished Scholar at Bowdoin College. She authored The New York Times bestseller "What If We Get it Right?: Visions of Climate Futures," work that is carried on with her newsletter and podcast of the same name.

Previously, she co-edited the climate anthology "All We Can Save," co-founded The All We Can Save Project, and co-created and co-hosted the Spotify/Gimlet climate solutions podcast "How to Save a Planet." She also co-authored the Blue New Deal, a policy roadmap for addressing climate challenges facing the ocean. As executive director of the nonprofit Waitt Institute, she co-founded the Blue Halo Initiative and led the Caribbean's first successful island-wide ocean zoning effort. Early in her career, she developed U.S. federal ocean policy at the Environmental Protection Agency and the National Oceanic and Atmospheric Administration.

Johnson earned a Bachelor of Arts from Harvard University in environmental science and public policy and a Ph.D. from Scripps Institution of Oceanography in marine biology. She serves on the board of directors for Patagonia and GreenWave and on the advisory board of Environmental Voter Project. Recent recognitions include the Schneider Award for Outstanding Climate Communication and the TIME Earth Award. Her writing has been published widely, including in the New York Times, WIRED and Rolling Stone.

She is the proud daughter of a teacher/farmer and an architect/potter. Above all: Ayana is in love with climate solutions.

The Rose-Walters Prize is given annually to an individual or organization that makes a defining difference and advances responsible action on behalf of the planet, its resources and people. Committed to restoring and sustaining the natural world for future generations, Sam Rose '58 and Julie Walters created this prize to focus attention on the need to reduce the impact of human lives on the planet, particularly given the rising population predictions for this century.

Dickinson, a national leader and innovator in sustainability education, challenges its students through classroom studies, living laboratories, service learning, student-faculty research and study abroad to build the knowledge and skills needed to create a sustainable world. Courses throughout the curriculum examine and seek solutions to national and global environmental problems. Dickinson's achievements and leadership in sustainability have earned the highest recognition from the Association for the Advancement of Sustainability in Higher Education, *Sierra* magazine, the Sustainable Endowments Institute, The Princeton Review and Second Nature. Learn more about the Rose-Walters Prize at www.dickinson.edu/rwp.

Additional Information

Photo Stand Procedure

Photos of students receiving their diplomas may be taken from the photo stand on the left side of the platform. Please assist us in making sure every family has the opportunity to take a photo by sending only one family member per graduate to the photo area well in advance of your student's descent down the "old stone steps." College personnel will be stationed near the photo area to help you move onto the platform shortly before your graduate receives his or her diploma. Please note that this area is for photography only. No video recording will be permitted, as doing so is time consuming and does not allow other families the same opportunity to photograph their graduate.

Diplomas

At the request of past graduates and parents, we do not roll the actual diplomas. The official diplomas will be available for pickup by the graduate or a family member at the Holland Union Building Underground Patio immediately following Commencement. Please be sure to pick them up by 2 p.m.

Photographs

Professional photographers hired by the college will take photos of graduates before and as they receive their diplomas from the president of the college. Legacy Photographics out of Bridgeport, Pa., will send your student proofs and make these photos available on their website within a few days after the event. If you have any questions, you can contact Legacy Photographics at 610-279-1791, info@legacyphoto.com or www.legacyphoto.com.

During the periods 1816 to 1821 and 1832 to 1834 the college was closed. In 1888-89, Charles Francis Himes was acting president; in 1986-87, George Allan, the dean of the college, served as acting president; and in 2016-17 Neil B. Weissman, provost and dean of the college, served as acting president; and from 2021-22, John E. Jones III served as interim president.

History of the College

In 1773 the citizens of Carlisle founded a grammar school on land donated by Thomas and John Penn, but classes were temporarily suspended when the first schoolmaster left to serve at Valley Forge. With an optimism buoyed by colonial independence, Philadelphia physician Benjamin Rush proposed that the fledgling school be transformed into a college that would be "a source of light and knowledge to the western parts of the United States"—the wilderness lands stretching west from the Susquehanna River.

John Dickinson, governor of Pennsylvania and drafter of the Articles of Confederation, was persuaded, and on Sept. 9, 1783, a charter was approved by the Representatives of the Freemen of the Commonwealth of Pennsylvania. The new college, founded by Presbyterians but with an independent board of trustees, was dedicated to "the instruction of youth in the learned languages" and in the "useful arts, sciences, and literature."

Charles Nisbet, a Calvinist minister from Scotland, was the first principal of the college. He insisted on rationality and high standards of learning and encouraged the founding of two of the nation's oldest continuing literary societies, Belles Lettres (1786) and Union Philosophical (1789). U.S. President James Buchanan, class of 1809, was among the societies' early student members.

The college's first permanent building, Old West, was completed in 1805. Benjamin Latrobe, the architect of the Capitol building in Washington, contributed both preliminary designs and working drawings for the building. To him and to its builders, higher education was a cause upon which the life of their new nation depended, and Old West was built as a living monument to their conviction. Known as the "College Edifice," the building was crowned by a weathervane replica of a classical sea deity, interpreted and rendered by a local coppersmith in the form of a mermaid. Over the years, it has become a distinctive symbol of this inland campus.

When Old West was erected, Dickinson's trustees and donors had the same broad objective in mind—to secure the freedom and future of America by assuring an educated citizenry. They agreed that liberty must be founded on learning. This aim was inscribed on the college's seal, a copy of which appears on the cover of this program. Among the donors were a U.S. president (Thomas Jefferson), a U.S. vice president (James Madison), a chief justice (John Marshall), members of President Jefferson's cabinet and members of the Supreme Court—in all, more than 100 patriots and soldiers of the War for Independence.

In the early 19th century, Dickinson fell on hard times, briefly closing twice before coming under the sponsorship of the Methodist Church in 1833. The college was revitalized under the leadership of its new president, John Price Durbin, a former chaplain of the U.S. Senate.

During the Civil War, Dickinson sent students to fight on both sides, hopeful "that college loyalties would bind where civil strife separated." In the years after the war, Dickinson leavened its abiding commitment to liberal-arts education with several innovations. The college became coeducational in 1884 in response to the determination and courage of its first woman student, Zatae Longsdorff, class of 1887. The law department, inaugurated in 1834, became the Dickinson School of Law in 1890. Since 1917 it has been independent of the college. Dickinson also introduced elective courses for its students at this time and experimented briefly with awarding doctoral degrees in cursu. Following World War I, President James Henry Morgan presided over a new educational experiment that required each student to graduate with a major field of concentration as a part of the general baccalaureate.

Since 1960, under the leadership of presidents Howard L. Rubendall '31, Samuel A. Banks, A. Lee Fritschler, William G. Durden '71, Nancy A. Roseman, Margee Ensign and John E. Jones III '77, P'11, Dickinson has developed and expanded a balanced and diverse liberal-arts curriculum that has fostered a wide range of distinctive multidisciplinary strengths that include innovative programming in global and sustainability studies; a willingness to tackle contemporary challenges through emerging fields such as security studies and data analytics; a nationally celebrated workshop/laboratory approach to science education; abundant student-faculty research opportunities; extensive internship, study-abroad and service-learning options; and a distinctive first-year seminar program.

Dickinson's picturesque campus has always served as a park and recreation area for students, its history punctuated by major fires, an 1863 Confederate Army bivouac and soldier parade drills in 1917 and 1942. In the early years, professors and students cultivated cabbages and onions on the grounds. Today, the campus's abundant flowers and trees are augmented by produce, herbs and forage greens, which also thrive at the nearby organic College Farm. In warm weather, classes often are held on the campus green, and as in generations past, Commencement exercises and other ceremonious occasions take place by the "old stone steps" of Old West.
