Project Title:

Project Summary: A general description of your project. What will you do, when, and how will outcomes be evaluated? How does this connect to sustainability at Dickinson? ***Approximately 200 words***

Sustainability Narrative- No Word Limit: 1) Describe your project's objectives, activities, and expected outcomes and how these connect to sustainability. Explain how the project will advance sustainability learning, research or practice. 2) Please address the following based on the grant type you are applying for:

- Curriculum Development: Include a statement of student learning outcomes and methods for assessment. How will the work of this project connect to your teaching and classes?
- Scholarly/Creative/Professional Development: Include a clear statement of outcomes and who will benefit. How these will be acquired and how they will be used to enhance learning at Dickinson?
- Student-Faculty Research/Research Assistantships: Include the names and class years of potential student/s, student learning outcomes, and how this research advances sustainability. How will the student work be evaluated, shared with the college/community and/or published?

If you are requesting a faculty stipend: 1) Describe the justification for this request highlighting time and supervision requirements for the project.
