“Developing the Future Leaders of Tomorrow”
COLLEGE LIFE AS A CADET

Enjoy life as a college student while participating in ROTC. You will have the opportunity to study abroad, play varsity sports, or become involved in college clubs while in ROTC. We believe that the time management and life skills gained as a college student will help make you a well-rounded and more effective officer and leader.

LEADERSHIP DEVELOPMENT

MILITARY SCIENCE CLASS

Army Officers and senior NCOs teach classes on topics ranging from time management and decision making to military customs, organizational leadership, and ethical decision making. The freshman class meets one hour per week while sophomores, juniors, and seniors meet two hours per week.

LEADERSHIP LABS

Leadership classes are supplemented with labs that emphasize practical applications. Labs are held each week, where you’ll learn critical military skills and get valuable leadership experience. Additionally, you will learn to plan, resource, and execute training and assess Cadet performance.

FIELD TRAINING EXERCISES

We will take you out of the classroom and into the field, giving you the opportunity to use your newly found skills in a variety of situations that challenge you physically, mentally, and test your ability to adapt in a complex environment.

PHYSICAL FITNESS

Our workouts are designed to achieve total fitness and encourage healthy, lifelong habits of exercise. Maintaining a high level of physical fitness is an integral part of life as an Army officer. We conduct up to three, one-hour group sessions per week involving warm-ups, upper-body exercises, running, swimming, and ruck-marching. We also conduct the Army Physical Fitness Test (APFT) twice a semester.

WARRIOR FORGE: LEADERSHIP DEVELOPMENT and ASSESSMENT COURSE

All senior ROTC Cadets attend LDAC (roughly 29 days) at Fort Knox, Kentucky in the summer after their junior year to demonstrate what they have learned and to continue their leadership development.

ADDITIONAL OPPORTUNITIES

ROTC activities include: rappelling, helicopter flights, obstacle courses, land navigation, and paintball. Cadets can also compete in a regional Ranger Challenge team competition, race in the Army 10-Miler, attend Airborne or Air Assault School, take Cultural Trips abroad or spend time with an active duty unit during summer breaks.

TEAMWORK

Cadets are exposed to numerous tactical leadership and ethical challenges that they overcome together. Here Cadets are faced with conducting a medical evacuation after a simulated combat scenario at Fort Indiantown Gap.
