

## **Strategic Plan III Implementation Responsibility**

Dickinson benefits from a comprehensive, collegial and effective governance system that actively involves faculty, administration and staff. Like its predecessors, Strategic Plan III (SP III) will be implemented through that governance system in its entirety. This appendix identifies the entities that will have primary responsibility for moving individual portions of SP III forward—for developing specific actions to achieve the goals and objectives outlined in the plan. Their work within the college’s governance system will constitute what we have in the past called “level three” of the planning process—the detailed implementation of plan goals (level one) and objectives (level two) .
