

How to Get Books in Digital (to Convert to Audio) Format

I. Download Read&Write by going to [Gateway](#)

→ Academic Resources (in the black box on the left)

→ Read & Write Gold (on the right) → Select Mac or PC for Instructions + the download
Trouble once it's downloaded? Call TextHelp support at 888-248-2479

II. Find Your Book in Electronic Format...

A. Try the HathiTrust Digital Library

- Go to www.hathitrust.org.
- Enter your book title and click "search."
 - If you find the book, click "Full View" and voila! You've got it, and can use Read&Write to have it read aloud.
 - If you see "Limited (search only)" then just copy and paste the book's author, title, and publishing info and send it to access@dickinson.edu and we'll obtain a copy of the book and email it to you.

B. Try Bookshare

- Make sure you've completed your registration for **Bookshare** (Search your inbox for *Bookshare* to find the email we sent you with your log-in credentials).
- Once you have registered, go to www.bookshare.org and search for your book.
 - If they have it, click the "Read Now" link under the book title to get the book. (Note: you'll need Google Chrome for this, which you can download by going to www.Chrome.com.)
 - Here's their [tutorial video](#) that explains how to have any book you find read aloud. If you're cool with that voice, you're all set. Otherwise, you can use Read&Write to read the book, as they've got lots of customizable voices from which to choose.

C. No luck? If neither HathiTrust nor Bookshare has the book(s) you're looking for...

1. Check the following websites to see if they have your title(s) in electronic format

- | | |
|--|--|
| a. http://librivox.org (audio recording) | c. http://onlinebooks.library.upenn.edu |
| b. www.gutenberg.org | d. http://books.google.com |

2. Ask Access and Disability Services to request an electronic copy from the publisher

We can see if a publisher can send us a digital copy of your book (it's hit or miss). Email access@dickinson.edu with the following information:

- | | |
|---------------|-------------------|
| a. Book title | d. Copyright year |
| b. Author | e. Publisher |
| c. Edition | f. ISBN# |

D. Scan your Book

Don't have digital copy of your book? Use any copier/scanner to scan your book into pdf format (one chapter at a time is best) and email it to yourself. Read&Write can convert it to audio.

III. Listen to your Book!

Open Read&Write, put your cursor at the start of the text, and click the "play" arrow to have your text read. (Here's a [video tutorial](#) to see what other cool tools Read&Write has.) If you have a PDF file to be read aloud, use Read&Write's "PDF Aloud" feature. To learn how, go to "Help" on the toolbar, and then "Video Tours" → "PDF Aloud."

Any trouble? Email access@dickinson.edu
