

Emergency Response Plan

Policy/Procedure

Dickinson has a comprehensive emergency response plan that is reviewed regularly and updated as necessary. As part of this regular review, we evaluate and take into account the development and use of new technologies with regard to both implementation and communication. Our Office of Public Safety also routinely conducts emergency response exercises and it will continue to do so.

Our emergency plan is coordinated with appropriate external law enforcement and emergency agencies. Given the fact that we are constantly working to improve our emergency response capacity, and for security reasons, we will not publicly release our comprehensive plan. However, every effort will be made to communicate necessary and timely information to all campus constituencies about how to respond in the case of an emergency.
